ABOUT ME

Hi, I'm Thang who is a backend web developer with over 3 month of experience in Spring Boot, with good basic knowledge of Database Design, SQL & NoSQL databases, and frontend skills in HTML, CSS & SCSS, JavaScript, and other development tools like Git. With my knowledge, I enjoy solving server-side logic, and database-related problems, creating the best user experience for users. I also learn new technologies and best practices to become a better engineer.

WORK EXPERIENCE

12/2022 + PERSONAL PROJECT

↓
PRESENT

Developer

Project: JobFast Server

- **Description:** This application allows users to create, manage, and apply for jobs on the system
- **Technologies:** Java, Spring Boot, MySQL, JPA(Java Persistence API)
- **Responsibilities:** Build database and handle related API logic based on personal opinions and reference sources.
- **Repository:** <https://github.com/thangnv2882/JobFast-Server>
- **Demo:**

Recognition and Gains: How to build server-side rendering Spring Boot apps, write RESTful APIs, clean code, better code management

10/2022 + HIT TECH DEVELOPMENT

↓
PRESENT

Backend Java Developer

Project: Classroom Management System

- **Description:** The system allows the administrator to create, manage, and evaluate online members in the club's existing courses. Users can take attendance, send assignments and documents to the system.
- **Technologies:** Java, React, Python, Docker, MyBatis, Liquibase
- **Responsibilities:** Contribute to database building and processing related API logic based on team leader's comments and suggestions.

Recognition and Gains: Understand the basics of software development workflow, how to build server-side rendering Spring Boot apps, write RESTful APIs and microservices architecture

10/2021 + HAUI INFORMATION TECHNOLOGY CLUB

↓

HIT CLUB

OBJECTIVE

Short Term: I would like to apply my knowledge to make a small contribution to the work and development of your company. I looking forward to working in a professional, dynamic and challenging environment. In addition, I want to learn and improve my knowledge and skills in web development with Spring Boot, Java, and especially English.

Long Term: In the further future, after about 2 years of working and accumulating experience. I want to become a full-stack web developer, so that I can use my knowledge to grow with domestic or foreign businesses. Of course, I also need a job that pays well so that I can take care of my family.

SKILLS

- HTML, SCSS, JavaScript
- Java, Spring Boot, MySQL, JPA
- Read and understand English at a basic level
- Use GIT to manage code
- Teamwork skills
- Task and time management skills

PRESENT

Main responsibilities:

- Support OOP class
- Support Java class
- Member Dev Team HIT CLUB
- Participate and organize club activities (classes, activities, travel)

EDUCATION

10/2020 + HANOI UNIVERSITY OF INDUSTRY (HAUI)

PRESENT

Major: [Information Technology](#)

GPA: 3.49/4
